PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 5+ years building production systems for international clients as an independent consultant. Primary strength in backend development: Node.js, Express.js, TypeScript, PostgreSQL, Prisma, REST API design, Redis, BullMQ, and Docker. Shipped SaaS platforms, APIs, and a Play Store mobile app end-to-end. Seeking a remote full-stack or backend role at a product company.

TECHNICAL SKILLS

Backend: Node.js, Express.js, TypeScript, JavaScript (ES6+), REST APIs, JWT Auth, Swagger/OpenAPI, Prisma

Databases: PostgreSQL, MongoDB, schema design, query optimization

Caching & Queues: Redis, BullMQ

Frontend: React.js, Next.js, React Native, Tailwind CSS, HTML5, CSS3

DevOps & Tools: Docker, Git, GitHub Actions, Linux, Vercel, Postman, Firebase, Supabase

PROFESSIONAL EXPERIENCE

Independent Full-Stack Software Engineer

Self-employed · Fiverr (Level 2 Seller) · May 2020 – Present

- Delivered 100+ client projects across SaaS, APIs, and mobile apps for US, UK, and EU clients via Fiverr.
- Built production REST APIs with Node.js, Express.js, PostgreSQL, MongoDB, and Prisma — JWT authentication, RBAC, and multi-step business workflows for client SaaS products.
- Standardized deployments with Docker across multiple client projects, eliminating recurring environment mismatch issues reported during handoffs.
- Implemented high-volume data exports with Node.js streams on the Absolute Market Research platform, avoiding memory spikes during large report generation.
- Owned full delivery cycles independently: requirements, architecture, implementation, deployment, and post-launch support in async remote settings.

Frontend Web Developer

Tortoiz Themes (part-time, concurrent) · January 2021 – December 2021

- Built commercial React templates for ThemeForest with reusable components and cross-browser compatibility.
- Improved render performance on low-end devices, supporting sustained sales and positive customer ratings.

SELECTED PROJECTS

Agency Client Portal

TypeScript · Node.js · PostgreSQL · Prisma · Redis · BullMQ · Docker

- Multi-tenant SaaS for agencies to manage client projects, approvals, and deliverables — primary backend showcase project.
- Row-level tenant isolation, granular RBAC, audit logging, and async job processing via BullMQ and Redis.
- Dockerized deployment with Swagger/OpenAPI documentation for all API endpoints.

Absolute Market Research

MongoDB · Express.js · React.js · Node.js

- Full-stack research platform with CMS, JWT auth, and RBAC for multiple user roles.
- Designed database schema and API layer for research workflows, automated PDF report generation, and stream-based data exports.

JBH International Limited

React Native · Expo · Supabase

- B2B multi-vendor marketplace with advanced search and filtering across garment product categories.
- Optimized performance on low-end Android devices; published on Google Play Store with 1,303 downloads and active daily users.

EDUCATION

SK National University

Bachelor of Arts — Political Science · 2023 – Present (expected 2027)

Engineering skills are self-taught and independent of formal coursework.
